COACH JERRY CLAIBORNE:

We were certainly pleased with the way we played in the first quarter. The early scores were very important, but then we went into a trance or something. We ran into a rash of penalties and had the opportunities

but we couldn't score. If we had continued to play in the second quarter like we did in the first, we could have had a super half.

Then we started the second half with just a super goal line stand. That stand and the punt that followed were the turning points of the game. It got us a breathing room.

The big play of the half was Jennings' run. That got us going and after we scored we were all right.

We played a straight defense for the most part. We tried to bump Cunningham around a lot. We wanted to hit him before he could leave the line of scrimmage and it seemed to work pretty well.

I'm still concerned about mistakes, but we are playing pretty well. We have a good sound kicking game and I think we are improving.

On the goal line stand, we blitzed the linebackers on third and fourth down. I don't know why they chose to run the fourth down play at Randy White, but I'm glad they did. He's one super player.

I said last week after missing a fourth down play inside the 10 that if I had the chance again I would kick. That's exactly what I did today. I try to benefit from my mistakes and I made one last week.

I was pleased with our entire game today. When you score 41 points and don't give up any you have to be pretty pleased.

COACH'S COMMENTS Red Parker of Clemson

I have been in coaching for a long time, but this was the most helpless that I have ever felt on the sidelines.

It was one of the toughest games that I have ever been through.

We were just drained of emotional gas--after the first four games, I didn't feel right when we went through the workouts yesterday and again today. That should not take anything away from Maryland, they did a great job and have a fine football team.

We just didn't cover punts and that started the bad things going. And we fumbled the ball away in ridiculous fashion, I just can't understand that part of it.

These two things really led to our downfall and from there, it wasn't even a contest.

Maryland hurt us on the screen passes, I thought that we defended the run pretty well until everything else fell apart, then every thing started to go for them.

Mark Sellers had a bad ankle and could not get going, and Mike O'Scain just lost his composure, I don't know a better way to say that but he just lost his composure.

I sure hope that this is a once in a lifetime experience, it sure was an awful one.

I sure made it easy for them with the fumbles and they converted when we made the mistakes like any good team should do.

When we did not score to start the second half, the door opened up and that was the end of it. We thought the game was out there when we started the second half and especially when we got it so close. But not getting the ball into the end zone started the rout.

I just could not get the ball to Bennie Cunningham. Maryland held him inside, outside and over the top and I don't mind being quoted on that.

I just did not have the same feeling when we started this one as we did at the start of the first four games and this is my fault.
