STATEMENT BY EDWARDS: I thought we were a little flat against Clemson's tough defense that was designed especially to stop Christy and Hunter, but we got the job ~~x~~ done when the going was tough and that's what counts. Clemson has a good ball club and they are going to hurt somebody before the season is over.

HOARD'S STATEMENT: That opening kickoff return hurt an awfully lot, but I thought our boys played a good game. It was certainly a big improvement over last week. The line played a good game all the way across. The score was just the ~~x~~ reverse of last year and so were the statistics. Last year we won the game and ~~x~~ State took all of the statistics. Just personally, I like those kind where we win. To heck with those statistics. Our team is improving every week and we are going to continue to show progress. As I've said before we have a young club, but it is some of the best material we have had at Clemson since I've been here.

STATEMENT BY EDWARDS: I thought we were a little flat against Clemson's tough defense that was designed especially to stop Christy and Hunter, but we got the job ~~x~~ done when the going was tough and that's what counts. Clemson has a good ball club and they are going to hurt somebody before the season is over.

HOARD'S STATEMENT: That opening kickoff return hurt an awfully lot, but I thought our boys played a good game. It was certainly a big improvement over last week. The line played a good game all the way across. The score was just the ~~x~~ reverse of last year and so were the statistics. Last year we won the game and ~~x~~ State took all of the statistics. Just personally, I like those kind where we win. To heck with those statistics. Our team is improving every week and we are going to continue to show progress. As I've said before we have a young club, but it is some of the best material we have had at Clemson since I've been here.
